I hereby choose to stop contributing to the CLS Group Registered Pension Plan. As such, the **Community Living Society** contributions will also cease. I have considered the consequences carefully before making this election, with the knowledge that I will no longer be considered an active member for vesting purposes. In addition, I understand that no benefits will become payable to me until I terminate employment, retire or die. I also understand that there will be a six month waiting period if I wish to recommence contributions.
