

Appendix D

Reportable Communicable Diseases in B.C.

Schedule A: Reportable by all sources, including Laboratories

Anthrax	Hantavirus Pulmonary Syndrome
Acquired Immune Deficiency Syndrome	Hemorrhagic Viral Fevers
Botulism	Hemolytic Uremic Syndrome (HUS)
Brucellosis	Hepatitis Viral:
Cholera	Hepatitis A
Congenital Infections:	Hepatitis B
Toxoplasmosis	Hepatitis C
Rubella	Hepatitis E
Cytomegalovirus	Other Viral Hepatitis
Herpes Simplex	Human Immunodeficiency Virus Infection
Varicella-Zoster	Leprosy
Hepatitis B Virus	Lyme Disease
Listeriosis and any other congenital infection	Measles
Cryptococcal infection	Meningitis: All causes
Cryptosporidiosis	(i) Bacterial:
Cyclospora infection	Haemophilus
Creutzfeldt-Jacob Disease	Pneumococcal
Diffuse Lamellar Keratitis	Other
Diphtheria:	(ii) Viral
Cases	Meningococcal Disease, All Invasive
Carriers	including “Primary Meningococcal
Encephalitis:	Pneumonia” and “Primary Meningococcal
Post-infectious	Conjunctivitis”
Subacute sclerosing panencephalitis	Mumps
Vaccine-related	Neonatal Group B Streptococcal Infection
Viral	Pertussis (Whooping Cough)
Foodborne illness:	Paralytic Shellfish Poisoning (PSP)
All causes	Plague
Gastroenteritis epidemic:	Poliomyelitis
Bacterial	Rabies
Parasitic	Reye Syndrome
Viral	Rubella
Genital Chlamydia Infection	Severe Acute Respiratory Syndrome (SARS)
Giardiasis	Smallpox
Group A Streptococcal Disease, Invasive	<i>Streptococcus pneumoniae</i> Infection, Invasive
H5 and H7 strains of the Influenza virus	Syphilis
<i>Haemophilus influenzae</i> Disease,	Tetanus
All Invasive, by Type	Transfusion Transmitted Infection
	Tuberculosis
	Tularemia
	Typhoid Fever and Paratyphoid Fever

Venereal Disease:
Chancroid
Gonorrhoea – all sites
Waterborne Illness
All causes
West Nile Virus Infection
Yellow Fever

Schedule B: Reportable by Laboratories only

All specific bacterial and viral stool pathogens:

- (i) Bacterial:
 - Campylobacter
 - Salmonella
 - Shigella
 - Yersinia

- (ii) Viral

Amoebiasis
Borrelia burgdorferi infection
Cerebrospinal Fluid Micro-organisms
Chlamydial Diseases, including Psittacosis
Creutzfeldt-Jacob Disease
Cryptococcal Infection
Herpes Genitalis
Human Immunodeficiency Virus Infection
Influenza virus, including the H5 and H7 strains
Legionellosis
Leptospirosis
Listeriosis
Malaria
Q Fever
Rickettsial Diseases
Severe Acute Respiratory Syndrome (SARS)
Smallpox
Tularemia
West Nile Virus Infection

As per Health Act Communicable Disease Regulation B.C.
Reg. 4/83 O.C. 6/83 includes amendments up to B.C. Reg. 44/2007, March 1, 2007
